

FOLK For homes, folk style is big - it goes hand in hand with the vogue for handcrafted designs and upcycled vintage pieces. Intricate stitching and embellishments are key - elements that also drive this trend in fashion. Gypsy florals, embroidery and crochet details abound in the spring/summer collections of Emilio Pucci (pictured), Valentino and Miu Miu, with flowing silhouettes evoking relaxed glamour. Strive for a similar mood in the home, mixing globally inspired accessories from Niki Jones (pictured as background), colourful patterned crockery by Anthropologie and stunning cushions by fashion designer Rifat Özbek from his west London shop Yastik. ▶
